"We are so excited to see you this year for Golf Day 2021! Now more than ever, we know the true value of community and our health. This year, the proceeds for Golf Day will support members in our community with chronic illness by bringing them technology through the TytoCare™ product to optimize their care via virtual visits. This program is an innovative way to connect people and their health care providers in ways we have never done before. Your involvement supports the program and impacts the health of our community."

Andrea Leslie, President

Spectrum Health Big Rapids and Reed City Hospitals
Spectrum Health United and Kelsey Hospitals

"Please join us for Golf Day 2021. It will be a great day to be back on the course with friends and colleagues. This event will support the ever important TytoCare™ Virtual Technology where many health care issues can be addressed virtually."

Jon Aylsworth

Golf Day 2021 Chair

Spectrum Health continues to strive for equitable care across our communities; throughout 2020 we saw the need for improved access to quality care in our rural communities. According to the latest Community Health Needs Assessment for the Northeast region, healthcare access remains a "critical area of concern." Nearly 60 percent of those surveyed cited distance to their provider and lack of transportation as barriers to access.

In our virtual-first environment, there is an increase in the number of options for in home care. Technology continues to advance, but those who need access to it the most cannot afford it. In late 2020 Spectrum Health partnered with TytoCare™ to use their technology for virtual visits.

Tyto is a handheld device that allows a health-care provider to examine their patient's heart, lungs, throat, ears, skin, abdomen, heart rate and more—all while the patient remains in their home. Tyto can also be used to monitor chronic conditions and monitor one's health after a surgery or procedure.

The 2021 Spectrum Health United and Kelsey Hospitals Golf Day will raise funds to support subsidizing or completely funding the acquisition of TytoCare™ technology for those who would benefit most, based on their care plans. These patients would be identified by providers and care managers, using factors such as their health monitoring needs and barriers including cost and transportation.

Please consider supporting this year's Spectrum Health United and Kelsey Hospitals Golf Day and join us in providing access to this potentially lifesaving device to those who need it most.
